

兔抗 GCNT3 多克隆抗体

中文名称：兔抗 GCNT3 多克隆抗体

英文名称：Anti-GCNT3 rabbit polyclonal antibody

别名：glucosaminyl (N-acetyl) transferase 3, mucin type; GNTM; C24GNT; C2GNT2; C2GNTM; C2/4GnT

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：GCNT3

反应种属：Human, Rat

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:	This gene encodes a member of the N-acetylglucosaminyltransferase family. The encoded protein is a beta-6-N-acetylglucosamine-transferase that catalyzes the formation of core 2 and core 4 O-glycans on mucin-type glycoproteins.
Applications:	ELISA, IHC
Name of antibody:	GCNT3
Immunogen:	Fusion protein of human GCNT3
Full name:	glucosaminyl (N-acetyl) transferase 3, mucin type
Synonyms:	GNTM; C24GNT; C2GNT2; C2GNTM; C2/4GnT
SwissProt:	O95395
ELISA Recommended dilution:	5000-10000

IHC positive control:	Human tonsil
IHC Recommend dilution:	25-100
