

兔抗 ESRRG 多克隆抗体

中文名称：兔抗 ESRRG 多克隆抗体

英文名称： Anti-ESRRG rabbit polyclonal antibody

别名： ERR3; NR3B3; ERRgamma

相关类别： 一抗

储存： 冷冻（-20℃）

抗原： ESRRG

宿主： Rabbit

反应种属： Human, Mouse, Rat

标记物： Unconjugate

克隆类型： rabbit polyclonal

技术规格

Background:

This gene encodes a member of the estrogen receptor-related receptor (ESRR) family, which belongs to the nuclear hormone receptor superfamily. All members of the ESRR family share an almost identical DNA binding domain, which is composed of two C4-type zinc finger motifs. The ESRR members are orphan nuclear receptors; they bind to the estrogen response element and steroidogenic factor 1 response element, and activate genes controlled by both response elements in the absence of any ligands. The ESRR family is closely related to the estrogen receptor (ER) family. They share target genes, co-regulators and promoters, and by targeting the same set of genes, the ESRRs seem to interfere with the ER-mediated estro

	gen response in various ways.
Applications:	ELISA, WB, IHC
Name of antibody:	ESRRG
Immunogen:	Fusion protein of human ESRRG
Full name:	estrogen-related receptor gamma
Synonyms:	ERR3; NR3B3; ERRgamma
SwissProt:	P62508
IHC positive control:	Human gastric cancer and human liver cancer
IHC Recommend dilution:	50-200
WB Predicted band size:	51 kDa
WB Positive control:	Mouse lung tissue
WB Recommended dilution:	500-2000
