

兔抗 FGFR2 多克隆抗体

中文名称：兔抗 FGFR2 多克隆抗体

英文名称：Anti-FGFR2 rabbit polyclonal antibody

别名：BEK, JWS, BBDS, CEK3, CFD1, ECT1, KGFR, TK14, TK25, BFR-1, CD332, K-SAM

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：FGFR2

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

The protein encoded by this gene is a member of the fibroblast growth factor receptor family, where a amino acid sequence is highly conserved between members and throughout evolution. FGFR family members differ from one another in their ligand affinities and tissue distribution. A full-length representative protein consists of an extracellular region, composed of three immunoglobulin-like domains, a single hydrophobic membrane-spanning segment and a cytoplasmic tyrosine kinase domain. The extracellular portion of the protein interacts with fibroblast growth factors, setting in motion a cascade of downstream signals, ultimately influencing mitogenesis and

	differentiation. This particular family member is a high-affinity receptor for acidic, basic and/or keratinocyte growth factor, depending on the isoform.
Applications:	ELISA, IHC
Name of antibody:	FGFR2
Immunogen:	Synthetic peptide of human FGFR2
Full name:	Fibroblast growth factor receptor 2
Synonyms :	BEK, JWS, BBDS, CEK3, CFD1, ECT1, KGFR, TK14, TK25, BFR-1, CD332, K-SAM
SwissProt:	P21802
ELISA Recommended dilution:	1000-2000
IHC positive control:	Human thyroid cancer and Human brain
IHC Recommend dilution:	25-100
