

兔抗 CETN3 多克隆抗体

中文名称：兔抗 CETN3 多克隆抗体

英文名称：Anti-CETN3 rabbit polyclonal antibody

别名：centrin 3; CEN3; CDC31

相关类别：一抗

储存：冷冻（-20℃）

宿主：Rabbit

抗原：CETN3

反应种属：Human, Mouse

标记物：Unconjugate

克隆类型：rabbit polyclonal

技术规格

Background:

The protein encoded by this gene contains four EF-hand calcium binding domains, and is a member of the centrin protein family. Centrins are evolutionarily conserved proteins similar to the CDC31 protein of *S. cerevisiae*. Yeast CDC31 is located at the centrosome of interphase and mitotic cells, where it plays a fundamental role in centrosome duplication and separation. Multiple forms of the proteins similar to the yeast centrin have been identified in human and other mammalian cells, some of which have been shown to be associated with centrosome fractions. This protein appears to be one of the most abundant centrins associated with centrosome, which suggests a similar function to its yeast counterpart. Alternatively spliced transcript variants encoding different isoforms have been found for this

	gene.
Applications:	ELISA, WB
Name of antibody:	CETN3
Immunogen:	Full length fusion protein
Full name:	centrin 3
Synonyms:	CEN3; CDC31
SwissProt:	O15182
ELISA Recommended dilution:	5000-10000
WB Predicted band size:	20 kDa
WB Positive control:	TM4, Jurkat, NIH/3T3 and RAW264.7 cell lysates
WB Recommended dilution:	500-2000
